# ***MOVING YOU FORWARD***

Though you leave the water, it never leaves you.

Introducing the Mercury MerCruiser® Bravo Four S™ drive. With a forward-facing design, the Bravo Four S takes you through water with unrivaled handling and efficiency while creating the ideal wake for tow sports. Whether you're at the wheel or at the end of a tow rope, the versatility of the Bravo Four S combined with innovative Smart Tow® features and fun-focused design makes you move forward like no other drive before.

### **SMART TOW® DELIVERS**

Bravo Four S comes equipped with the power to do more with Mercury SmartCraft® digital technologies, including an upgraded Smart Tow® system. Smart Tow tethers surf tab and propulsion controls together with CZone ballast control so all you have to do is pick the tow sports activity and determine the perfect speed and wake. Smart Tow makes all the necessary adjustments to deliver what you want. On-the-fly changes are just as simple so you can focus on the water in front of you and the surfer behind you. Let Smart Tow handle the rest.

### **SURF LIKE A PRO**

Bravo Four S in conjunction with Smart Tow provides the ultimate platform for wakesurfing, with speed and surf tab controls designed to handle the ballast and slow speeds necessary for creating a surfable wake. Together with the maneuverability of a steerable drive and extra grip of forward-facing props, Bravo Four S and Smart Tow ensure a safe, yet exhilarating surfing experience.

### **GET UP AND GO**

Before the rider can surf the wake, they have to get on it. With five pre-set launch intensities, you can vary between aggressive acceleration for veteran riders and a more subdued start for beginners. Once the intensity is selected, the driver won't have to worry about leaning too hard on the throttle. Smart Tow delivers the perfect experience every time.

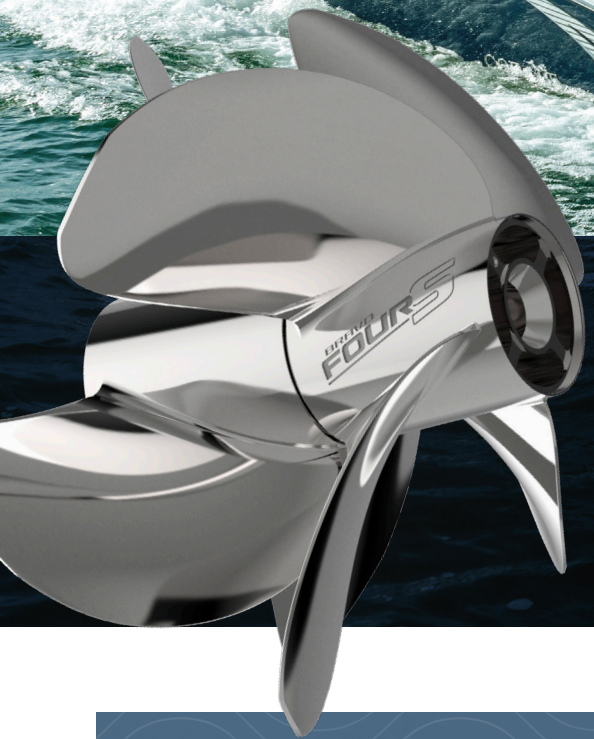

### **CRITICAL CONTROLS**

Surf controls are at your fingertips on a compatible VesselView® display. A convenient control bar makes quick work of adjustments and selecting settings, without limiting access to all the normal features of your multi-function display. Smart Tow is the most intuitive water sports system in the industry, with service and support provided entirely by your authorized Mercury Dealer.

### ***CRAFTED PERFORMANCE***

Calling on its history of engineering the best-performing, most efficient props in the industry, Mercury went to the drawing board to craft five new props specifically for the Bravo Four S drive. They're designed to run in a dual contra-rotating configuration with a four-blade prop in front of a three-blade prop, which minimizes cavitation to reduce noise and increase efficiency. Like every Mercury prop, these new models are durable for long-lasting performance.

### ***MORE CONTROL WITH MERCURISER***

Bravo Four S is compatible with legendary MerCruiser sterndrive engines ranging from 250hp to 430hp. You'll appreciate the trimmable, steerable drive and reliable, quiet MerCruiser performance, whether you're carving out a wake at 8 mph or cruising into a tranquil cove at sunset. Bravo Four S is the drive that lets you do more.

### ***COMPATIBLE MERCURISER STERNDRIVE ENGINES***

8.2L V8 / 6.2L V8 / 4.5L V6

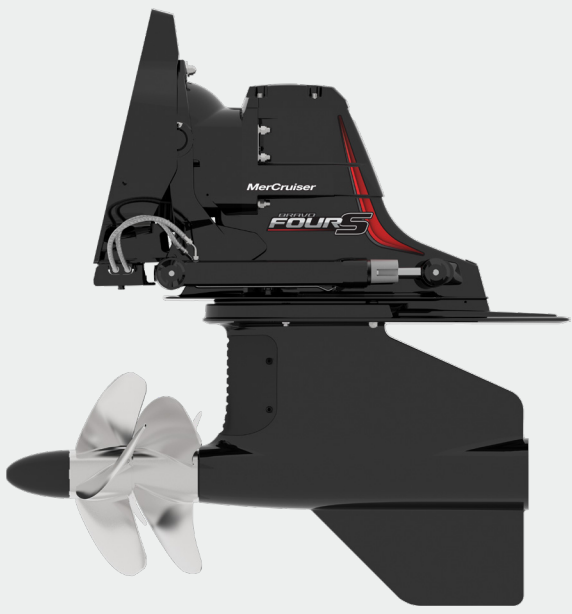

***GEAR RATIOS***  
2.20, 2.00, 1.81

---

***PROPELLER PITCHES***  
19.5, 21, 22.5, 24, 25.5

---

***DIGITAL THROTTLE & SHIFT***  
Digital Throttle & Shift (DTS) ensures smooth, precise shifting and lightning-fast throttle response with zero hesitation.

### ***WARRANTY PROTECTION***

When you surf with Bravo Four S, you get peace of mind backed by decades of engineering that have delivered better corrosion protection, more durable alloys and superior paint – the same features that made every member of the Bravo sterndrive lineup legendary for toughness.
