New Features

1. Customizable engine info page – press and hold to select up to 6 pieces of information
2. Updated control bar – reordered items in control bar to not confuse trim/tabs with battery voltage or fuel
3. Ability to invert tank reading for Euro-style inverted tank senders
4. Link gauge setup for fuel 1 vs fuel 2 link gauges
5. Font and icon updates to main Mercury User Interface page to better see fuel, speed and battery info
6. New Genset tank type
7. Genset data display improvements (Genset must be enabled under settings)
